Mobile Satellite TV Antennas

VuQube Antenna Models

V10 – Wireless Remote Controlled

Powered by your satellite receiver, use the wireless remote control to elevate and rotate the dish to lock on the satellite from inside your cab.

V20 – Stationary Automatic

With the VuQube V20 model, all you need to worry about is which TV channel you want to watch! Just park and push a button for fast, automatic satellite lock and automatic satellite switching capabilities.

V30 – In Motion Tracking

Perfect for team drivers and those who take family members with them on the road, the V30 model provides continuous satellite TV reception while on-the-move. The ultimate entertainment experience for your life on the road.

Get crystal clear reception of your favorite satellite TV and commercial free music channels while on the road. With a VuQube satellite dish, you can easily bring unlimited entertainment into the comfort of your own cab. Already have satellite TV service at home? Just add a receiver to your home satellite TV account and take your channels with you for just a few dollars more per month.

Additional accessories required (purchased separately):

- Satellite Receiver & Programming Subscription
- Television

Vuqube is a great addition to any driving team... watch your shows on the road!

MB100 – Aluminum
MB101 – Stainless

MB200 – Grab Handle Mount

Choose a permanent or removable mounting bracket option to mount the VuQube on your truck. The removable bracket (MB200) lets you attach the VuQube to a grab handle on the rear of the cab and add a stability bracket to the back of the cab with aircraft grade adhesive tape for secure mounting without drilling holes.
